SKILLS

Languages: Java, JavaScript, C++, C, PHP, Python
Frameworks: HTML, CSS, React JS, NodeJS, Tailwind, Bootstrap
Tools/Platforms: MongoDB, SQL, Git, GitHub ,Oracle
Soft Skills: Problem-Solving, Team Player, Project Management, Adaptability

TRAINING

FLAMES’24 SUMMER TRAINING PROGRAM Jun 2025 – Jul 2025
MERN Stack | CipherSchools

- Learned full MERN stack development including **Node.js**, **Express.js**, **MongoDB**, **React.js**, and implemented concepts like **RESTful APIs**, **JWT authentication**, and **file upload with Multer** during hands-on practice.
- Applied MERN stack training to build a real-time product listing app with login/signup, product upload, search, and responsive UI using React.js.
- Implemented JWT auth, Bcrypt password hashing, image uploads via Multer, and REST API testing with Postman using Node.js/Express.js backend.

PROJECTS

CampusBazaar | MERN Stack Jun 2025- Jul 2025

- Built a platform for college students to buy and sell used products like books, electronics, and accessories within the campus.
- Integrated MongoDB for real-time data storage, with features like user registration/login, individual user dashboards, and secure product listings.
- Developed REST APIs for insertion, retrieval, deletion of data, user authentication, and data storage. Styled the platform using Tailwind CSS for responsive design and implemented Scrum methodology for effective project management and collaboration.

E-Deliver Web| MERN Stack Jan 2025- March 2025

- Developed a platform where a user can log in, register, explore, and buy numerous products.
- Implemented user and admin panels for personalized item management, feedback collection, and detailed sales reports using React and MongoDB. Designed a responsive UI using Bootstrap for seamless navigation across devices.
- Developed REST APIs for insertion, retrieval, deletion of data, user authentication, and data storage. Styled the platform using Tailwind CSS for responsive design and implemented Scrum methodology for effective project management and collaboration.

CERTIFICATES

Responsible And Safe AI System IIT Madras- NPTEL	Nov 2024
Full Stack Web Development Coursera	Jul 2024
C++, AI, PHP, Node.js, JavaScript, Coursera	Apr 2024
Data Structures and Algorithms Udemy	May 2023

ACHIEVEMENTS

Received a letter of appreciation from Marpu Foundation for exceptional performance as a Social Media Marketing Intern

Solved more than 100 problems on LeetCode (String, Array, Linked List, Math,Sql,BST)

Solved more than 100 questions on HackerRank (C++, Python, Java, C, SQL)

Received a certificate for volunteering with PAHAL NGO in organizing blood donation camps and distributing books and food in underprivileged slum areas.

EDUCATION

Lovely Professional University Bachelor of Technology Computer Science and Engineering: CGPA: 7.46	Phagwara, Punjab Since August 2022
IGSN University Intermediate (PCM) - Percentage: 89.40 %	Gopalganj, Bihar Mar 2019 – May 2021
UMV School Matriculation - Percentage: 85.60 %	Gopalganj, Bihar Mar 2018 – May 2019
